Dear Community Members,

While the Governor has declared a state of emergency in light of concerns with the coronavirus, this does **NOT mean we need to close our six centers or FCC sites. It is intended to give the state maximum flexibility to respond to public health concerns.**

Please know that the health and the well-being of the children and our staff is our top priority. We also know how important it is to keep our programs open to provide care. We will continue to monitor the public health situation and make changes as needed.

We will send more information out through our centers and Family Child Care providers. If you have questions, please contact **CEO@NurturyBoston.org.**

In partnership
Laura Perille
